Tempe, AZ | U.S. Citizen

EDUCATION

Arizona State University, Tempe, AZ

Aug 2025 – May 2029

Bachelor of Science – Business Data Analytics | Minor: Information Systems

- Relevant Courses: Data Analytics, Business Intelligence, Database Management, Statistical Analysis, Information Systems

University of Miami, Coral Gables, FL

June 2024 – July 2024

Summer Scholars Program – Business, Ethics, and Leadership

Chaminade High School, Mineola, NY

Sep 2021 – June 2025

High School Diploma

EXPERIENCE

Data Systems & Automation Intern

June 2026 – Present

Naval Air Warfare Center Weapons Division (NAWCWD) – U.S. DoD, via Viceroy

Ridgecrest, CA

- Led a formal Analysis of Alternatives (AoA) evaluating PM/dashboard platforms — including a low-code app platform, a custom-coded SharePoint Framework (SPFx) solution, and a government cloud CRM platform — for a Navy Integrated Product Team, iterating across multiple revisions as new evidence emerged.
- Pivoted the recommended architecture mid-project after correcting scoring gaps in maintainability and scalability, shifting the winning platform to a custom-coded SharePoint Framework (SPFx) solution hosted in a secure DoD (IL5) cloud environment.
- Designed, developed, and maintained a custom-coded SPFx application (TypeScript/React) covering project tracking, meetings, travel requests, document review, notifications, reporting, and administration — troubleshooting and extending functionality as requirements evolved.
- Built a custom force-directed dependency-graph visualization tool to communicate the application's codebase architecture to stakeholders.
- Developed Power BI dashboards, low-code app interfaces, and Power Query / M pipelines automating data ingestion, transformation, and real-time visualization across disparate government data sources.
- Presented findings and architecture recommendations to IPT leadership, documented the application thoroughly, and coordinated administrator handoff — including access, configuration, and support workflows — for continuity post-internship.

Skills Used: SharePoint Framework (SPFx), TypeScript, React, SharePoint Lists, Power BI, Power Apps, Power Automate, Power Query / M Language, Analysis of Alternatives (AoA), Data Visualization, Technical Documentation, Stakeholder Briefing, DoD/IL5 Environments

Data Analyst / Artificial Intelligence Intern

May 2025 – May 2026

LiveWell Group

Delmar, NY

- Designed, trained, and deployed a custom AI model specialized for LiveWell's operational workflows, and built automation pipelines integrating AI outputs into existing business processes to reduce manual workload.
- Built and maintained Power BI dashboards normalizing datasets from GIS systems, utility providers, and public databases to support strategic housing and energy investment decisions.
- Conducted on-site property visits and market comparables analysis across New York State to evaluate rental pricing for new real estate developments, producing reports that directly guided capital allocation.
- Coordinated with National Grid and ENERGY STAR to identify and resolve metering discrepancies, ensuring data integrity across energy benchmarking datasets used in executive reporting.

Skills Used: Power BI, Power Query, GIS Tools, Excel, AI Model Training & Deployment, Python, Automation, Data Pipelines

Special Projects & Central Data Management Intern

May 2023 – Apr 2025

Lifetime Brands

Garden City, NY

- Built custom automation workflows and data systems in SAP to streamline product data capture and organization across business units, saving hundreds of man-hours in manual processing.

- Designed and deployed custom PowerApps solutions to improve cross-departmental workflow efficiency, standardizing data entry and reducing processing errors at scale.
- Led data cleanup and normalization initiatives, resolving quality issues and ensuring accuracy and consistency of product records across ERP and content management systems.

Skills Used: SAP, ERP Systems, Business Process Automation, Data Normalization, PowerApps, Power Automate, Workflow Design
